**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the circuit arrangement of a plurality of series connected Hall devices, wherein a "driving current driving at least one Hall device of the plurality of Hall devices is a current adjusted amount of a driving current driving another Hall device" with constant voltage supply circuits applying a substantially constant bias voltage to each Hall device is not taught by the prior art of record. The prior art teaches a plurality of series connected hall effect sensors with one voltage source for the entire array as well as a plurality of parallel connected hall effect sensors, each receiving an identical biasing voltage from a source. The prior art of record fails to disclose a reasonable motivation to combine the two prior art methods.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Pertinent Prior Art***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Haeussermann (US-4,093,917) discloses a prior art method of series connecting a plurality of hall effect sensors using only one voltage source.

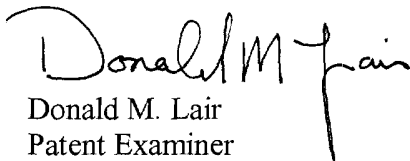

6. Dillman (US-5,473,250) discloses a prior method of connecting a plurality of hall effect sensors in parallel and applying a constant voltage to each hall effect sensor.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald M. Lair whose telephone number is (703) 305-4450. The examiner can normally be reached on Monday - Friday, 8 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, N. Le can be reached on (703) 308-0750. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1436.
